20 October 2016

Dear Parent/Carer

### Re: Science lessons at Wolsingham Comprehensive

I am writing to let you know that next half term our Year 5 children will be going to Wolsingham Comprehensive every Friday afternoon to take part in a range of science lessons focussing on Forces and Energy.

This is a fantastic opportunity for the children to work in the science labs and experience first hand lessons at the comprehensive school. These lessons have been arranged with the aim of giving year 5 children a taster of what it will be like when they transfer to comprehensive school and is part of the transition process. Even if your child is not going to Wolsingham, they will be attending this session in order to take advantage of the science lessons and learning opportunities.

The children will be collected at 12noon from school and taken to Wolsingham Comp. they will be accompanied and supervised by Mrs Parvin (HLTA). They will be provided with a free lunch when they arrive, again giving them experience of lunchtime in a bigger school. They will be returned to school before the end of the normal school day.

They will take part in these lessons right up until we break up for the Christmas holidays. I understand that a similar arrangement is currently under discussion for the second half of the Spring term, when they will be taking part in Sport and PE lessons.

Yours sincerely

Mrs D Cross  
Deputy Headteacher
