15 January 2020

Dear Parents/Carers

Re: Class 4 Science activity

In Science this half term your child(ren) will be learning about the human body. Part of this is learning about their teeth and how to protect and look after them correctly.

To achieve this, I am asking for every child to bring their toothbrush into school next Wednesday (22.1.20). The activity is for them to clean their teeth and then use a plaque discolouring chew which will show the children how well they have cleaned them. The chew will show the children both 'old' plaque and 'new' plaque. This will then stimulate the lesson on how to care for their teeth effectively.

If you are happy for your child to bring their toothbrush into school and to take part in the plaque discolouring activity please sign the consent form below and return it to the school office before next Wednesday.

Yours sincerely

Mr S Myers
Head Teacher

I confirm that my child:.....(name of child) will bring their toothbrush into school on Wednesday 22nd January 2020 and I that I am happy for them to take part in the plaque discolouring activity.

Signed:.....(parent/carer)
